

SHIVASHANKAR R K

Full Stack Web Developer

Bengaluru, Karnataka, India | +91 77953 83787 | shivashankarrk2004@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Web Developer with hands-on experience designing, building, and deploying responsive, user-focused web applications using React.js, JavaScript (ES6+), Python, and Django. Skilled in designing and integrating REST APIs, managing SQL databases for CRUD operations, and deploying applications on AWS (EC2, S3, VPC). Comfortable across the stack, from Linux administration and shell scripting to VPC networking and security-group configuration. Certified in Full Stack Web Development and Cloud/Linux fundamentals, with four end-to-end projects delivered independently and in team settings. Seeking to bring strong problem-solving skills, a fast learning curve, and a collaborative mindset to a Junior/Associate Web Developer role.

TECHNICAL SKILLS

- Professional Skills: Communication, Client Interaction, Problem-Solving, Time Management
- Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3
- Frontend: React.js, React Hooks, React Router, Tailwind CSS, Framer Motion, Responsive Web Design
- Backend: Django, REST API Design & Integration, CRUD Operations
- Cloud & DevOps: AWS (EC2, S3, VPC), Git/GitHub, Linux Administration, Shell Scripting, Cron Automation
- Networking: TCP/IP, Subnetting, VPC Peering, Routing & Security Groups
- Tools: Vite, Microsoft Excel

PROFESSIONAL EXPERIENCE

Web Developer (Trainee/Intern)

Jan 2026 – Jun 2026

TSIAR Sports Private Limited

- Built responsive, cross-browser web applications using HTML5, CSS3, JavaScript, React.js, Python, and Django.
- Designed and integrated REST APIs to connect frontend interfaces with backend services, streamlining data flow between systems.
- Developed and queried SQL databases to support create, read, update, and delete (CRUD) operations for application data.
- Collaborated with a cross-functional development team to debug, test, and deploy production-ready web applications.

Web Development & Cloud Trainee

2025 – 2026

IT Vedant Institute

- Completed an intensive, project-based training program covering full-stack web development (HTML, CSS, JavaScript, React.js), Python, Django, and SQL.
- Deployed and managed web applications on AWS EC2 and S3, gaining practical cloud-hosting experience.
- Automated routine system-administration tasks using Linux commands and custom shell scripts.
- Applied core networking concepts, including VPC design, subnetting, and routing, in hands-on labs.
- Built and deployed multiple real-time projects integrating third-party APIs into working applications.

PROJECTS

LuxeNext – Premium Real Estate Website | React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Vite, Framer Motion

- Developed a responsive luxury real estate website featuring premium property listings and a modern user interface.
- Implemented engaging animations and seamless page transitions using Framer Motion and Animate.css.
- Designed reusable React components with responsive layouts, integrating Lucide React icons for enhanced usability.
- Improved application performance with Vite, optimized component rendering, and a mobile-first responsive design.

DevPortfolio – Personal Portfolio & Profile Website | React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Vite, Framer Motion

- Developed a responsive personal portfolio website to showcase projects, technical skills, certifications, and contact information.
- Built reusable React components across six UI sections (Home, About, Skills, Projects, Resume, Contact) for a consistent user experience.
- Implemented smooth animations and interactive effects using Framer Motion and Animate.css, with Lucide React icons for visual appeal.
- Delivered fast load speeds and cross-browser compatibility through Vite optimization and clean, component-based architecture.

GitHub Profile Card | *React.js, JavaScript, GitHub REST API*

- Built an interactive profile-card application that fetches and displays live GitHub user data via the GitHub REST API.
- Implemented state management with React Hooks (useState) to handle search input, loading states, and error handling.
- Designed a fully responsive UI with custom CSS, ensuring consistent display across desktop and mobile viewports.

Spicy Bites – E-Commerce Web Application | *React.js, JavaScript, React Router*

- Developed a responsive e-commerce single-page application with product listing, cart, and navigation features.
- Implemented client-side routing with React Router for seamless, multi-page navigation without full-page reloads.
- Engineered reusable, modular React components to improve code maintainability and speed up feature development.

Secure Multi-VPC Backup System | *AWS, Linux, Shell Scripting*

- Architected a secure, two-network AWS environment using VPC Peering to enable private communication between resources.
- Deployed and configured Linux EC2 instances, managing routing tables and security groups to enforce least-privilege access.
- Automated recurring file backups with rsync and cron jobs, reducing manual intervention for data protection tasks.
- Secured all data transfer over private IP communication, avoiding exposure to the public internet.

EDUCATION

Bachelor of Engineering 2022 – 2026
RYME College, Ballari, Karnataka | CGPA: 7.8 / 10

Pre-University Course (PUC) 2022
Sri Bangi Basappa PU College | 76%

CERTIFICATIONS & ACHIEVEMENTS

- Full Stack Web Development & Linux/Shell Scripting Certification — IT Vedant Institute (2025–2026)
- Web Development, Linux & Networking Program — IT Vedant Institute
- State-Level 400m Athletics Runner
- State-Level Chess Champion

LANGUAGES

English, Hindi, Telugu, Kannada
